The background of the image is a modern, industrial-style interior. On the left, there is a wall covered in a dense, grid-like pattern of small, dark, rectangular elements, possibly acoustic panels or a decorative facade. To the right, a large, dark, angular structure, possibly a staircase or a large piece of machinery, is illuminated from within, casting a warm, orange glow. The floor is a light, textured surface, possibly concrete or a polished metal, reflecting the ambient light. The overall atmosphere is one of a high-tech, futuristic environment.

DECORTECH A SPECIAL PROJECT AT TECNA 2024

Decortech will be a real thematic journey within Tecna 2024.

An area with a dedicated platform for leading companies in industrial processes, raw materials, colours and design.

A showcase where operators can discuss the main themes of the next-generation surfaces industry and their aesthetic customisation.

DECORTECH

3 FOCUS

DIGITAL DECORATION AND FINISHING

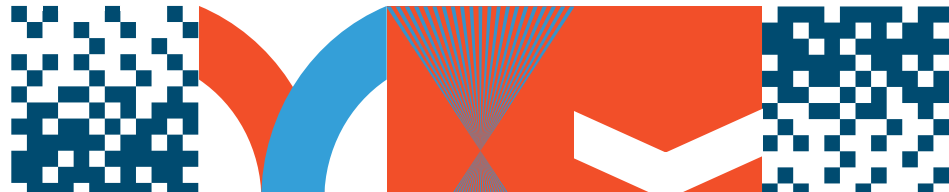

- The latest technologies for customisation and aesthetic rendering of surfaces

RAW MATERIALS

- The role of colors, inks and additives in product aesthetics

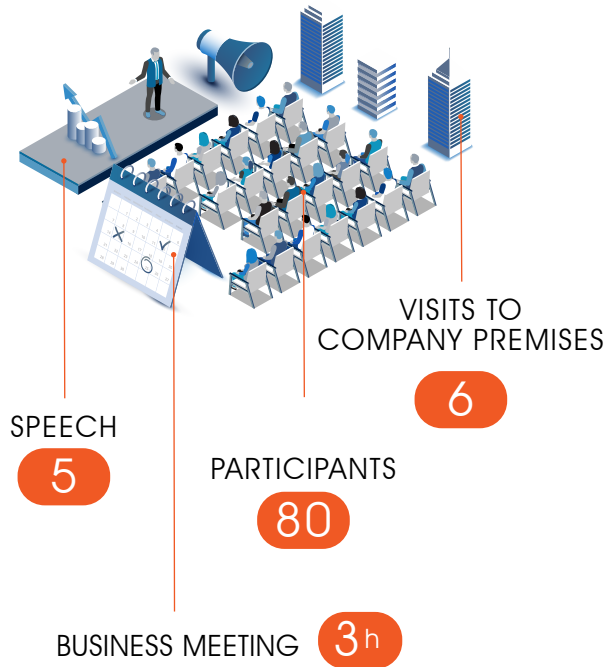

DESIGN STUDIES

- Aesthetic research for materials design
